JUMBO

## L To Do Wheelies

1. Position your Clutch Lever as shown. As far back as you can get on the bike as possible, but keeping the hands on the handlebars and feet in the pedals.

2. Push down on the Engage and hold until sound reaches a very high pitch. STOP holding but hold onto handle. Bike will launch automatically and actually rise up on its back tire in a fantastic wheelie start.

NOTE: It takes practice to learn just the right speed and proper positioning of the rider to make bike do a wheelie. On rough or extra high speed, may be necessary, however, an asphalt driveway and concrete walkway is necessary, and you may have to position Clutch Lever figure 1 until released to prevent cycle from flipping over as it launches from the Engage.

## ROAD AND TRAIL ADVENTURE SET™

*Assembly and Play Instructions*

So, for you with your love for an adventure, we have this toy set. After just three easy steps you'll have a road and trail adventure set that can take you wherever you want to go. It's perfect for the boy or girl who loves to travel, explore, and discover. The set includes a car, a map, a compass, and a set of instructions. The car is made of plastic and has a steering wheel, a gas pedal, and a brake pedal. The map is a large sheet of paper with a grid and a compass rose. The compass is a small toy compass with a needle and a scale. The instructions are simple and easy to follow. This set is perfect for the boy or girl who loves to travel, explore, and discover. It's a great way to spend your time and have fun at the same time. The set is made of plastic and is very durable. It will last for many years and be a great gift for the boy or girl who loves to travel, explore, and discover.
